

## Industrial Sideloader Course

C1 Up to & including 5 Tonne

C2 Over 5 & up to/including 15 Tonne

C3 Over 15 Tonne

Our Industrial Sideloader Forklift Courses are accredited through ITSSAR and will provide candidates with the basic knowledge and practical skills to operate a Sideloader lift truck.

The course will comprise theoretical and practical instruction covering the following:

- The course will provide theoretical and practical instruction covering the following: -
- The Health & Safety at Work Act 1974, PUWER 98 & LOLER 98
- Operators Safety Code
- Daily inspection
- Hydraulic systems
- Safe operating practices
- Engineering principles
- Starting, stopping, steering & simple manoeuvring
- Operation of hydraulic controls, weight assessment and handling laden and unladen pallets
- Vehicle loading and unloading

### **Knowledge:**

On completion of training candidates will have gained a theoretical understanding of the following: -

- The Health & Safety at Work Act, 1974, PUWER 98 & LOLER 98
- Operators Safety Code and practices
- Daily inspection procedures
- Hydraulic systems and engineering principles
- Assessment of weights

### **Skill:**

On successful completion of training the candidate will be able to: -

- Carry out daily inspections including battery care
- Operate a sideloader truck safely complying with the operators safety code
- Load and unload vehicles safely and stack loads correctly

The duration of the course varies depending on the candidate's previous experience from a 1 day periodic refresher course, a 2/3 day existing operator course to a 5 day novice course for new operators

On successfully passing the practical skills test candidates will be issued with an ITSSAR accredited certificate and registered on the ITSSAR TOPS database.

Refresher training is recommended every 3 years.
