

Lorry Mounted Loader Course

Our Lorry Mounted Loader Courses are accredited through ITSSAR and will provide candidates with the basic knowledge and practical skills to operate a Lorry Mounted Loader.

The course will comprise theoretical and practical instruction covering the following:

- Responsibilities under the Health & Safety at Work Act 1974, PUWER 98 & LOLER 98
- Pre-use checks on both loader and carrier vehicle
- Factors affecting stability & mobility
- Motive controls
- Hydraulic controls
- Operating in open and small restricted areas

Knowledge:

On completion of training candidates will have gained a theoretical understanding of the following: -

- Responsibilities under the Health & Safety at Work Act 1974, PUWER 98 & LOLER 98
- Pre-use checks on both loader and carrier vehicle
- Factors affecting stability & mobility
- Positioning of carrier vehicle in varying locations

Skill:

On successful completion of training the candidate will be able to: -

- Manoeuvre and operate the crane safely and efficiently
- Site the crane safely
- Stack and destack at various levels in a safe and competent manner
- Carry out all pre-use checks and running checks on the lifting appliance and relevant attachments
- Manoeuvre the carrier vehicle into position in order to carry out the lifting of various loads
- Set up carrier vehicle to carry out lifts from minimum to maximum radius
- Secure various loads on the vehicle bed in accordance with industry practices

The duration of the course varies depending on the candidate's previous experience from a 1 day course for an experienced operator or periodic refresher and 2 days for a new operator

On successfully passing the practical skills test candidates will be issued with an ITSSAR accredited certificate and registered on the ITSSAR TOPS database.

Refresher training is recommended every 3 years.
